25X1 12. [] Dick Schultz, Associate Chief Counsel, House Internal Security Committee, called to alert us that in October, in connection with Committee hearings on the Venceremos Brigade, testimony will be given by Mr. and Mrs. James Clement Van Pelt, Jr. (nee: Anna Coble) to the effect that they served the Second Brigade in March and April 1970 at the instructions of their supervisor, James Hart, who was director of the Meshon Center for National Defense in Columbus, Ohio. Schultz' call was purely cautionary to assure that no Agency interest was involved. I thanked him for his consideration and told him we would let him know if there is any problem.

25X1 13. [] John Stratton, Investigator, House Internal Security Committee, called and asked if we could provide him with the radio frequency and range of Radio Hanoi. He said they were interested in this information in connection with the statements by Jane Fonda. The request was relayed to FBS.

25X1 14. [] David Martin, Senate Internal Security Subcommittee staff, called to request Agency assistance in reviewing testimony to be presented by General Walt on 13 September to the Subcommittee on the world drug situation. He said the material would be available for pickup by us at 2:30 on 8 September and he would appreciate our comments by noon on Monday. I told Martin that we wish to be cooperative wherever possible, but that this was a very short deadline and I would have to check on the availability of personnel to handle this task and would let him know the outcome. I called [] OCI, who agreed that we should try to be as helpful as possible and said that [] in his office would review the material and that he would contact [] NARCOG, to alert him. I placed a call to Martin to advise him of this and to ask what specific topics would be involved, but I did not receive a return call.

Martin said the Committee had been asked for the source of a statement in a committee print, "Soviet Intelligence and Security Services, 1964-70," which was not footnoted. The statement was in the introduction and attributed to Khrushchev a remark that espionage is needed only by aggressors and that the Soviet Union does not engage in espionage because they don't intend to attack anyone. The request was relayed to [] CI Staff.
